SUMMARY

Mobile Application Developer with 2+ years of experience building Android and React Native applications. Delivered 6+ production apps across ride-hailing, sports management, AI chatbots, and media streaming domains for Google Play Store and Apple App Store. Skilled in Kotlin, React Native, TypeScript, MVVM, Redux, Firebase, and real-time systems, with experience owning end-to-end mobile development, deployment, and release cycles across Android and iOS platforms.

TECHNICAL SKILLS

Cross-Platform: React Native, TypeScript, JavaScript, Redux, React Hooks, React Navigation, Native Modules, Expo
Native Android: Kotlin, Java, Jetpack Compose, XML, MVVM, Coroutines, LiveData, ViewModel, Hilt, Navigation Component, WorkManager, DataStore
Backend & Storage: Firebase (Auth, Firestore, Messaging, ML Kit), Retrofit, Room, Realm, AsyncStorage
Integrations & Tools: BLE, RFID, Bluetooth, WebSocket, ZegoCloud, REST APIs, Git, CI/CD, Play Store, App Store

EXPERIENCE

Mobile Application Developer

AlgoSoft Apps Technologies, Noida

Mar 2026 – Present

React Native · TypeScript · iOS & Android

- Independently developed and released 4 production React Native applications for Android and iOS, managing the complete lifecycle from development and API integration to Play Store and App Store deployments.
- Worked on key products including **NCRide / ALO** (ride-hailing platform), **PGTI** (golf tournament management), **Unheard** (AI emotional chatbot), and **The Divine Sparks** (spiritual media streaming application).

Android Developer

Libquik Pvt. Ltd., Agra

Nov 2024 – Feb 2026

Kotlin · Firebase · MVVM

- Developed and maintained two production Android applications within the Libquik ecosystem, handling feature development, Firebase integrations, and Play Store releases.
- Worked on **LibQuik** (student-facing library and coaching seat-booking application) and **LibQuik Business** (business-owner platform for seat management, approvals, and operational workflows).

Android Developer

Walking Tree Technology, Agra

Jun 2024 – Oct 2024

Kotlin · Java · BLE · RFID

- Maintained and enhanced live production applications while modernizing existing Android codebases and implementing hardware integrations.
- Worked on **Team Tracker**, leveraging BLE and RFID for employee tracking and attendance workflows, and **TenSquare Education**, a learning platform enabling secure delivery of recorded classes and PDF content with controlled student access.

PROFESSIONAL PROJECTS

NCRide / ALO

AlgoSoft — In Progress

React Native · TypeScript · Redux · Maps

Ola/Uber-style ride-hailing platform for Delhi NCR with separate customer and driver applications, real-time booking, live ride tracking, and turn-by-turn navigation.

PGTI — Golf Tournaments App

Live on Play Store & App Store

React Native · TypeScript · MVVM · WebSocket

Global golf tournament management platform featuring real-time leaderboards, scorecards, tournament draws, player rankings, scheduling, WebSocket-based live scoring, and state management.

Unheard — AI Emotional Chatbot

iOS & Android

React Native · TypeScript · LLM APIs

AI chatbot that detects emotional tone in conversations and generates context-aware empathetic responses. Designed, developed, and released independently.

The Divine Sparks

Live on Play Store & App Store

React Native · Media Streaming · File System

Spiritual media streaming application featuring video playback, background audio support, secure in-app downloads, and permission based content access. Released independently.

Libquik Platform

Live on Play Store (2 Apps)

Kotlin · Firebase · ML Kit · MVVM

Library and coaching seat-booking ecosystem with dedicated student and business-owner applications, seat reservations, approval workflows, and image moderation features.

PERSONAL PROJECTS

- ChatNova** — Chat + video calling using Firebase Realtime DB and ZegoCloud
- Jaankari** — MVVM news app with Retrofit + Room DB offline support and live News API
- KharchaPaani** — Offline expense tracker with Realm Database

Kotlin

Kotlin

Java

EDUCATION

Master of Computer Application — GLA University

Bachelor of Computer Application — Dr. MPS College
